Greatest Money Makers Ever

Supplying basic every-day service. Rendering a high return on investment.

Since 1912 we have been constantly and exclusively concerned with the needs of the Amusement Arcade. Ever endeavoring to discover and offer the Arcade Owner the latest and best revenue machines, we have seen and handled all the best, and some of the next best machines for this purpose. We accordingly know what machines will "make a buck" and what are duds.

We are always at your service for our expert opinion on the right machines. All new releases are test-proven in reliable location operations to reveal their potential revenue value. We know the real value of a machine within a few weeks of its first run.

In planning a new arcade, or figuring on new additions or replacements, CHECK FIRST WITH US.

Cost Price is not alone indicative of earning power. Early production machines, of good basic design and interest, of quality and precision build, are still going strong. Mechanically reconditioned and refinished the Munves Way, such machines stand shoulder to shoulder with the best of the newest in favor and earning power.

ALL OUR USED EQUIPMENT ARE REBUILT BY TRAINED MECHANICS TO FACTORY SPECIFICATIONS, READY FOR LOCATION.

Let us quote trade-in value of your obsolete, idle machines against the purchase of the best revenue offerings, both new and old.

Rid out the duds! Cut off the dead-wood! Use that costly rental space for live-action, proven-profit-play-getting games.
